GOVERNANCE ACTION PLAN

<https://www.effectivegovernance.com.au/governance-action-plan/>

20 questions based around the Corporate Governance Practice Framework® shown below. We have developed this framework as the basis for the analysis, development and enhancement of a leading practice corporate governance system.

The framework highlights five major components of developing an effective corporate governance program, namely:

- **Defining Governance Roles:** delineating the role of the board and key players in the governance system
- **Key Board Functions:** elaborating the critical activities that a board performs and defining performance expectations
- **Effective Governance:** the procedures and processes which lay the foundation for continuing improvement in corporate governance
- **Improving Board Processes:** enhancing the administrative functions and processes of the board
- **Board Behavioural Dynamics:** looks at the behaviours and dynamics around the boardroom table that contribute to board performance and ultimately to organisational performance.

Useful Governance Templates

<http://www.effectivegovernance.com.au/useful-resources/governance-documentation-templates/>

For your use, we have included some useful governance templates that are in our suite of governance documentation templates. To download, please click on the links below.

- [Board Dispute Resolution Policy](#)
